Spring Comes to the Berkshires

Each year, early or late, SPRING brings pleasant thoughts of GARDENS and the desire to get them started.

Again this SPRING it will be our pleasure to assist you in thoughtful planning of your LAWNS and GARDENS. To help you attain superior results, we bring you the newest and best in products where quality is the first consideration.

We hope you and your family will enjoy going through this catalog, carefully picking out the items you need. Be wise! Place your seed orders early before the late SPRING rush. We will appreciate it, too.

Thank you for your wonderful response to our catalog last year. This year we are looking forward to seeing our old friends and meeting new ones.

GENERAL LIST OF

Standard Tested Vegetable Seeds

PRICES SUBJECT TO CHANGE

SPECIAL NOTICE. We give no warranty, express or implied, as to the productiveness of any seeds, bulbs or plants we sell and we will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seed, bulbs, or plants.—BERKSHIRE FEED and GARDEN SUPPLY

SEED TREATMENT. All of our vegetable seed (except beets, chard, and onions) have been treated with Spergon, Spergon DDT, or Arasan. The treatment prevents seed decay and "damping-off". Stimulates growth. It is compatible with Legume Bacteria.

ASPARAGUS—Sow the seed thinly in rows 1 foot apart in April or May and keep down weeds; thin seedlings to 3 or 4 inches apart. Roots should be set out in spring in rich sandy loam, dug 18 inches deep, work in plenty of well rotted manure. Every fall a good dressing of coarse manure and our Garden Fertilizer should be applied after tops are cut and in the spring forked in. Never cut closely.

★ **MARY WASHINGTON**—The popular, rust-resistant asparagus—rich, dark green color, a marked improvement over the old varieties.

pkt. 20c; oz. 50c; ¼lb. \$1.75

ASPARAGUS ROOTS—Mary Washington (New) 25 for \$1.50; 50 for \$2.50; 100 for \$4.50.

BEANS

When ground is perfectly warm and dry, make drill 2 inches deep and 18 inches to 2 feet apart, drop the beans 3 inches apart in the drills, cover not over 2 inches deep. Hoe well in dry weather. Sow every two weeks for succession. Compost, or our Garden Fertilizer may be thoroughly worked into soil before planting.

Dwarf Green Podded Varieties—Snap

★ **STRINGLESS GREEN POD, Asgrow (Resistant Tendergreen)**—Early, tender and crisp. Pod dark green, long and straight, round, meaty, stringless. ¼ lb. 30c; ½ lb. 45c; 1 lb. 85c; 2 lbs. \$1.50; 5 lbs. \$3.05.

Asgrow Stringless Green Pod

★ **GIANT STRINGLESS GREEN POD**—Very early, round pods absolutely stringless, fine quality, one of the finest snap beans grown; ¼ lb. 30c., ½ lb. 45c., 1 lb. 85c., 2 lbs. \$1.50, 5 lbs. \$3.05

BOUNTIFUL,—Pods grow to large size, are flat, fleshy and stringless, when young, cook tender with fine quality. ¼ lb. 30c; ½ lb. 45c; 1 lb. 85c; 2 lbs. \$1.50; 5 lbs. \$3.05.

CELERY

CULTURE.—Sow seeds in light rich soil, as early as ground can be worked, in drills 8 or 10 inches apart, cover seeds about a quarter of an inch deep, rolling or treading them if ground is dry. When fairly out of seed leaf transplant or thin from 6 to 8 inches apart in the row, and let grow until wanted to plant out. Keep well wet down in dry weather. Set out in July, 6 to 8 inches apart, (press soil firmly against roots), in single row in shallow trenches, having previously worked a good quantity of well rotted manure in bottom of trench. It is well to work thoroughly into the soil under and around the trench a quantity of our Garden Fertilizer. To raise good celery requires rich soil. Earth up two or three times, taking care not to let the earth get into the heart of the plant.

GIANT PASCAL,—The largest variety grown, fine nutty flavor, excellent keeper, easily blanched,

HERB GARDENING AS A HOBBY

Plain or fancy, herb gardening can be a satisfying and rewarding experience. Herb gardens can be small, even windowsill size, with clay pots as your garden, or as big and varied as you please.

If you are a plain cook but like food that tastes just a little bit better or if you are a gourmet with a real flair for outstanding dishes, the herb garden is for you! Our forefathers knew the herb gardens' value and a home was seldom without one.

Herbs are wonderful refreshers as additions to breads, sauces, including your favorite barbecue sauce, jellies, stuffings, cheeses and butter, mustard, and all kinds of soups. Many kinds of teas brewed from various herbs are healthful and delicious. Try some in your vegetables or marinades for zest and flavor.

Be creative, be different, have fun, grow herbs and give all your meals a lift with a dash of some delightful herb!

HUBBARD-HALL LAWN WEED KILLER (2, 4-D)—This product won't harm grasses. Its clean, uniform granules WILL KILL both top growth and root systems of any and all broad-leaved weeds within just a few days. 8½ lbs. (treats 5,000 sq. ft.) \$3.50.

HUBBARD-HALL WEED-KIL LAWN FOOD 10-6-4 with 2, 4-D added—One application of this lightweight granular combo product and you've got two jobs done easily . . . weeding and feeding. Non-burning. 5,000 sq. ft. bag \$5.75.

HUBBARD-HALL GRUB KILLER—Sod brown or so soft it could be turned back like a rug? Whole lawn areas dead? Moles everywhere? These are all indications that Japanese beetle grubs are feeding away on grass roots. Solution? HH Grub Killer and a short, easy session with a lawn spreader. Applied anytime from early Spring to late Fall, this free-flowing granular product will eliminate grubs for an entire season or longer. 25 lbs. (treats 10,000 sq. ft.) \$4.70.
